2025-06-29 Field Day 2025 thanks to participants

Date: June 29, 2025

After Field Day weekend, Dave Schmidt, AI6VX, thanked everyone who took part in the club's Field Day event. He wrote that the club had lots of operators and support people, good weather, and that the bands cooperated. He said he would put the score together and review it, along with Field Day photos, at the next club meeting.

He asked anyone who had logged contacts on paper to email him a scan of the log sheet that week, and thanked those who had already handed him paper logs.
